Member Investment Shares (MIS)

Member Investment shares are classified as equity. Costs directly attributable to the issue of new shares or options are shown as a deduction from the equity proceeds, net of any income tax benefit. The MIS are transferable but are not listed on the Australian Securities Exchange or any other public stock exchange. MIS have no maturity date and investment shareholders have no right or option to demand their repayment. MIS are issued at a fully paid value of \$1.00 per share.

CAPITAL REQUIREMENTS

Capital requirements for MCU Ltd are determined by the risk weights of the relevant assets held, with the minimum required capital to over 8% of risk weighted assets. The current level of capital as at 31 March 2020 is 14.62%.

The risk weighted assets for each asset grouping as set out in the table below is determined by APRA Prudential Standard APS 112. These are prescribed risk weights to measure the level of risk based on the nature and level of security supporting the assets recovery.

The risk weighted assets held as at the end of the quarter ended 31 March 2020 is described in Table 3.

The capital held by MCU Ltd exceeds the policy and minimum capital prescribed by APRA Prudential standards. The excess may facilitate future growth for MCU Ltd.

The capital ratio is the amount of capital described in Table 3 divided by total risk weighted assets.

IMPAIRMENT OF ASSETS

CREDIT RISK – INVESTMENTS

Surplus cash not invested in loans to members are held in high quality liquid assets (HQLA) or other investments according to MCU Ltd's Liquidity Policy. This includes the funds required to be held to meet withdrawal of deposits by members. MCU Ltd uses the ratings of reputable ratings agencies to assess the credit quality of all investment exposures, where applicable, using the credit quality assessment scale in APRA prudential Guidance in APS112. The credit quality assessment scale within this standard has been complied with. The table 4a below excludes equities and securitisation exposures. MCU Ltd does not have any securitisation exposures. The exposure values associated with each credit quality step are as follows in Table 4a.

CREDIT RISK – LOANS

The classes of loans entered into is limited to loans; commitments and other non-market off-balance sheet exposures. MCU Ltd does not enter into debt securities; and over-the-counter derivatives.

Impairment details

The level of impaired loans by class of loan is set out below. In the note below:

- Carrying Value is the amount of the balance sheet gross of provision (net of deferred fees).
- Past due loans is the 'on balance sheet' loan balances which are behind in repayments past due by 90 days or more but not impaired.
- Impaired loans are the 'on balance sheet' loan balances which are at risk of not meeting all principle and interest repayments over time.
- Provision for impairment is the amount of the impairment provision allocated to the class of impaired loans.
- The losses in the period equate to the additional provisions set aside for impaired loans, and bad debts written off in excess of previous provision allowances.

The impaired loans are generally not secured against residential property. Some impaired loans are secured by bill of sale over motor vehicles or other assets of varying value. It is not practicable to determine the fair value of all collateral as at the balance date due to the variety of assets and their condition. The analysis of MCU Ltd's loans by class, is shown in Table 4 b.

GENERAL RESERVE FOR CREDIT LOSSES

This reserve is set aside to quantify the estimate for potential future losses in loans and investments.

In addition to the above provision for impairment, the Board has recognised the need to make an allocation from retained earnings to ensure there is adequate protection for members against the prospect that some members will experience loan repayment difficulties in the future, and the risk of loss on investments and other assets.
